

“Shield Your Skin Reveal Your Glow” With Realook Sunscreen Cream

**“Powerful SPF 50 Protection
Against UVA + UVB”**

www.reature.in

About Product

ReaLook Sunscreen Cream is an advanced, multi-benefit sunscreen designed to protect, repair, and nourish your skin every day.

With **SPF 50 PA+++ broad-spectrum protection**, it shields your skin from harmful **UVA & UVB rays**, helping prevent tanning, sunburn, and premature aging.

Unlike basic sunscreens, it goes beyond protection.

Enriched with a Ceramide Complex, it helps strengthen the **skin barrier, lock in moisture**, and keep your skin healthy and resilient.

The formula is boosted with hydrating ingredients like **Pentavitin & Aloe Vera**, along with soothing extracts like **Calendula and Allantoin**, which calm irritation and provide long-lasting hydration.

Additionally, Licorice Extract helps improve skin tone and adds a natural glow, making it perfect for daily skincare.

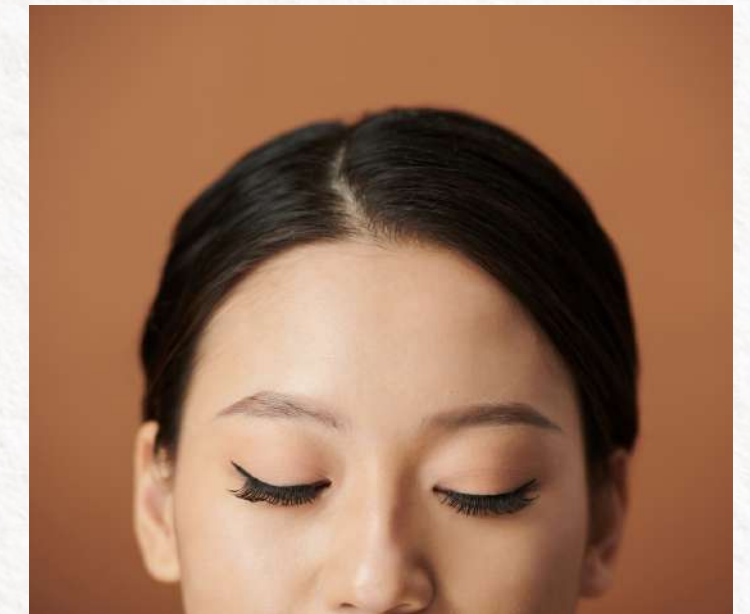

"Not just sunscreen — complete skin protection & repair system."

Key Highlights

Enriched With **Ceramide Complex & Calendula BROAD SPECTRUM SPF 50, PA+++** ADVANCED SKIN BARRIER REPAIR

ReaLook Sunscreen Cream offers **SPF 50 PA+++ broad spectrum** protection against harmful **UVA & UVB** rays while going beyond basic sun care with its advanced skin repair formula powered by **5 Ceramides + Cholesterol**. It provides deep hydration with Pentavitin & Aloe, soothes irritation with **Calendula & Allantoin**, and enhances your natural glow with **Licorice Extract**. The lightweight, non-greasy texture ensures comfortable daily use without white cast, making it a complete **sunscreen + skincare** solution that protects, repairs, and nourishes your skin every day.

The Power of Pure Ingredients

Our formula is powered by a blend of advanced skincare actives and natural botanical extracts that work together to deliver visible results.

Signature Ingredients

Pentavitin (Saccharide Isomerate) + Aloe Vera Extract: Pentavitin is a powerful hydration ingredient that binds to the skin and provides deep, long-lasting moisture (up to 72 hours). Combined with Aloe Vera, it not only hydrates but also soothes and refreshes sun-exposed skin. This duo ensures your skin stays soft, plump, and hydrated throughout the day, even under harsh sunlight.

Ceramide Complex (EOP, NP, AP, NS, AS) + Cholesterol: It helps lock in moisture, prevent dryness, and protect the skin from environmental damage. Regular use makes skin stronger, smoother, and more resilient, reducing sensitivity over time.

Allantoin: It helps to calm irritation, smooth rough texture, and improve overall skin feel. It also enhances the skin's ability to retain moisture, keeping it healthy and comfortable.

Glycyrrhiza Glabra (Licorice) Root Extract: It works to reduce pigmentation, dark spots, and tanning while improving overall skin tone, helping the skin look clearer, brighter, and more radiant.

Virgin Coconut Oil + Sunflower Oil: These natural oils provide deep nourishment and hydration to the skin. They help in softening the skin, improving texture, and supporting the skin's natural barrier. Sunflower oil is rich in Vitamin E, which adds antioxidant protection, while coconut oil enhances smoothness and glow.

Dimethicone + Emollient Complex (Caprylic/Capric Triglyceride, Dicaprylyl Carbonate): It helps the product spread easily, creates a protective layer on the skin, and prevents moisture loss without clogging pores. The result is a lightweight, comfortable finish with no stickiness.

Calendula Officinalis Flower Extract: Calendula is known for its strong anti-inflammatory and soothing properties. It helps reduce redness, irritation, and sensitivity caused by sun exposure. It also supports skin healing, making the sunscreen suitable for sensitive and easily irritated skin types.

Key Ingredients

UV Protection Complex

(Ethylhexyl Methoxycinnamate, Butyl Methoxydibenzoylmethane, Octocrylene)

Benefits:

These advanced UV filters provide broad spectrum SPF 50 PA+++ protection by shielding the skin from both UVA (aging, tanning) and UVB (sunburn) rays. They help prevent sun damage, premature aging, pigmentation, and dullness, making them essential for daily skin defense.

Complete sun protection against tanning, aging & damage

Key Ingredients

Ceramide Barrier Repair Complex

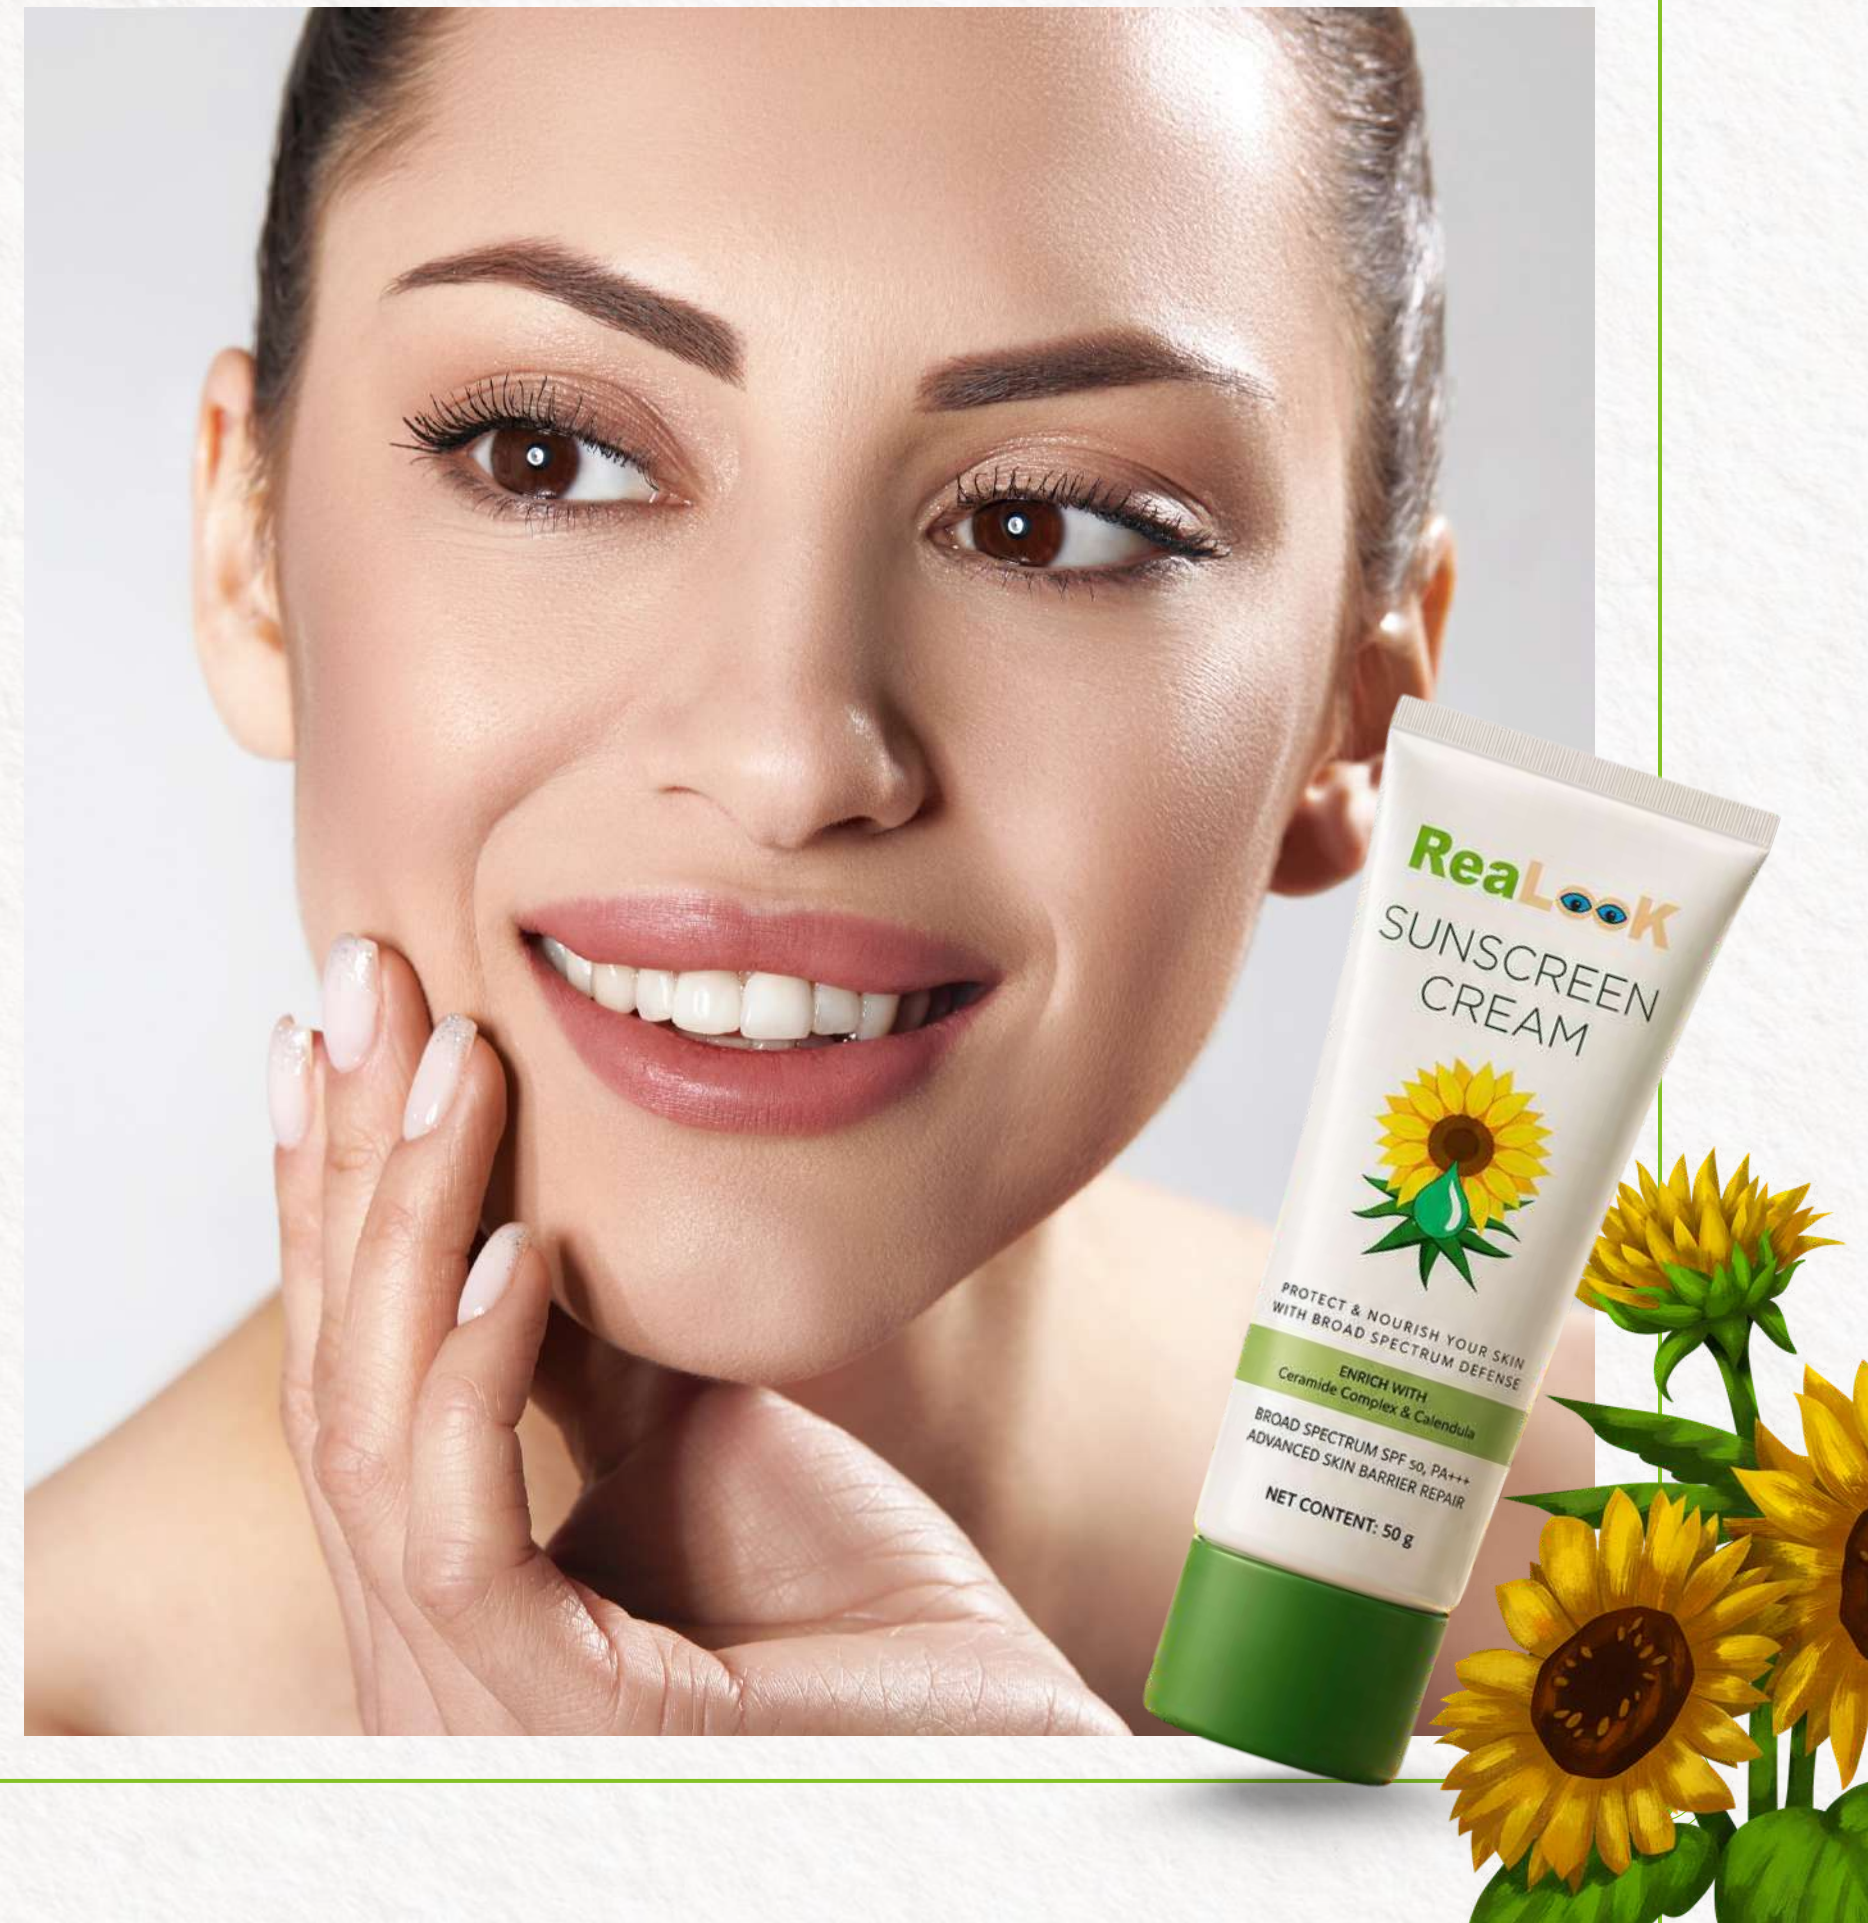

(Ceramide EOP, NP,
AP, NS, AS +
Cholesterol +
Hydrogenated
Lecithin)

Benefits:

This powerful lipid blend mimics the skin's natural structure to repair and strengthen the skin barrier. It locks in moisture, reduces sensitivity, and protects against environmental stress. Regular use results in healthier, smoother, and more resilient skin.

Deep skin repair & long-term barrier strength

Key Ingredients

Deep Hydration System

(Saccharide Isomerate, Glycerin, Xylitol Complex – Xylitol, Anhydroxylitol, Xylitylglucoside)

Benefits:

This hydration system works at multiple levels to provide instant + long-lasting moisture. It binds water to the skin and prevents dehydration even under sun exposure, keeping skin soft, plump, and fresh all day.

Long-lasting hydration with moisture lock technology

Key Ingredients

Soothing & Skin-Calming Complex

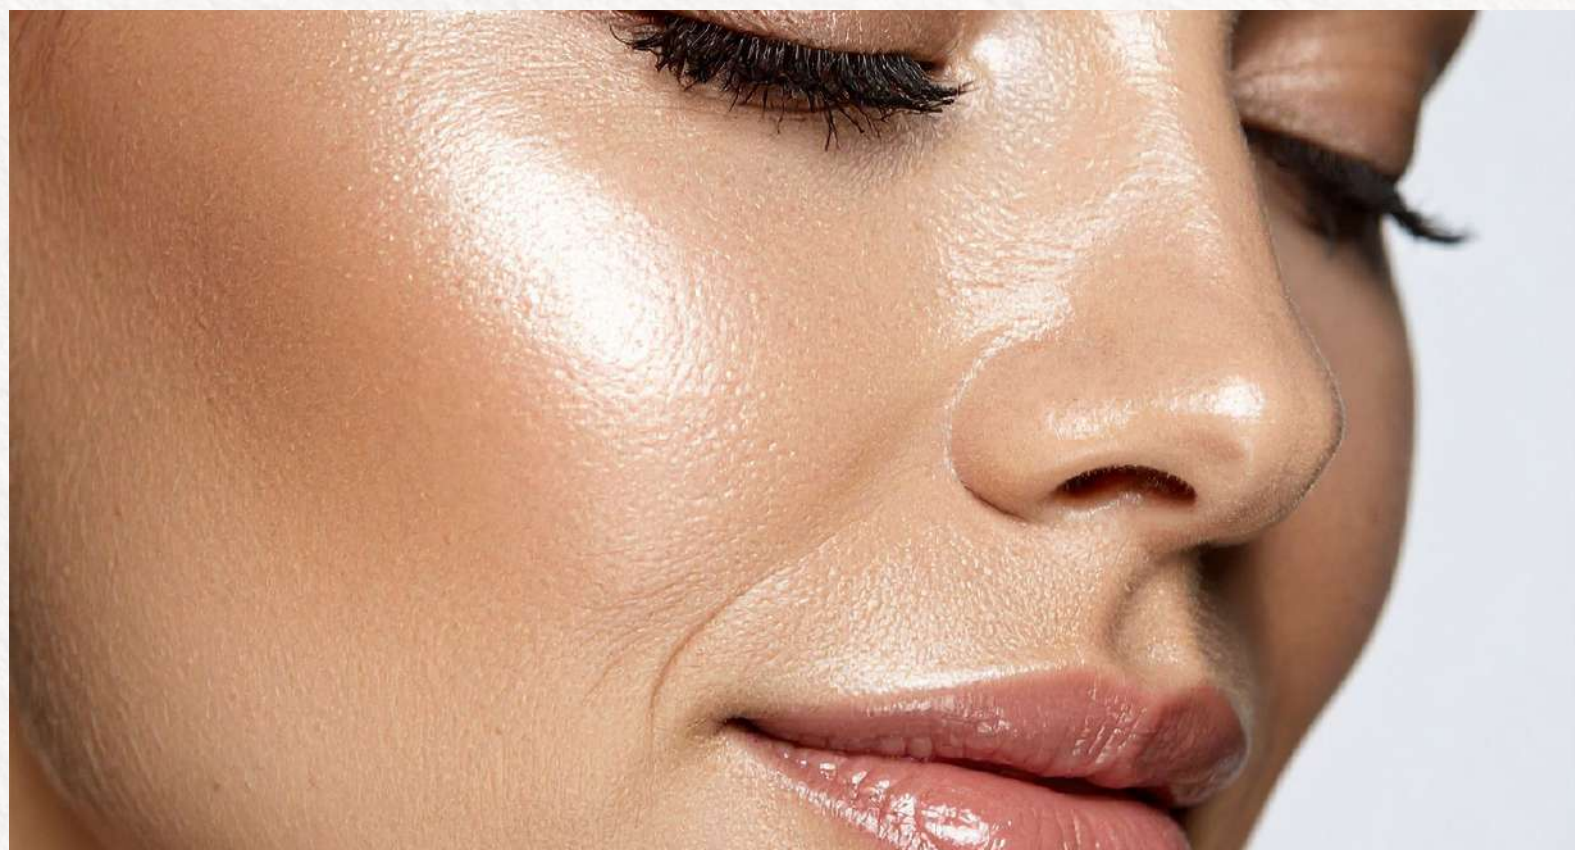

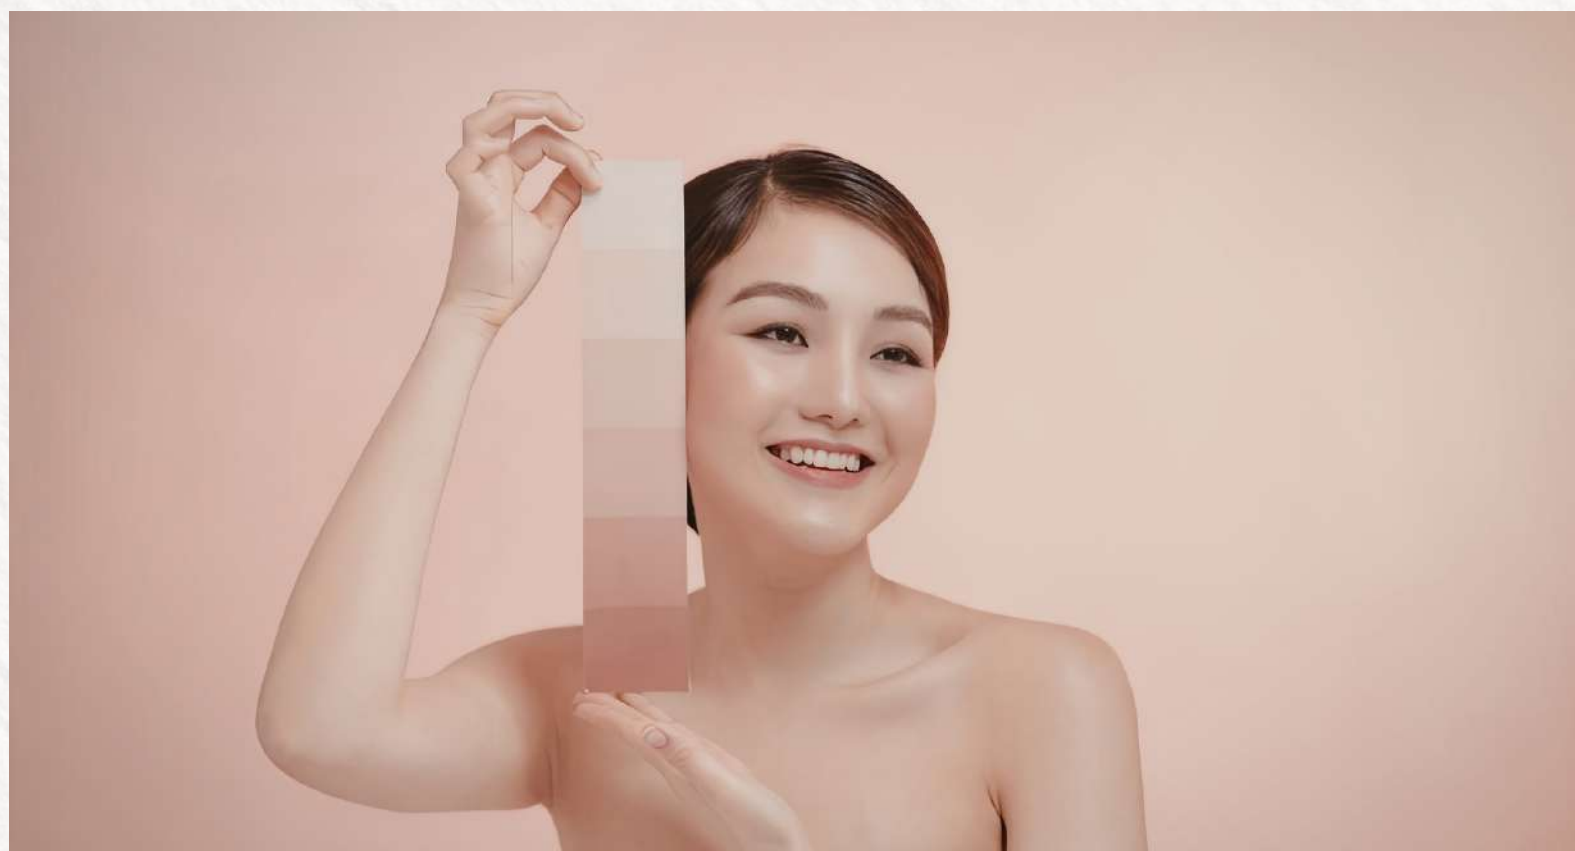

(Aloe Vera Extract, Calendula Extract, Allantoin)

Benefits:

These ingredients work together to calm irritation, reduce redness, and soothe sun-exposed skin. They also support healing and improve overall skin comfort, making the product suitable for sensitive and irritated skin types.

Instant soothing & irritation relief

Key Ingredients

BRIGHTENING & SKIN TONE ENHANCER

(Glycyrrhiza Glabra – Licorice Root Extract)

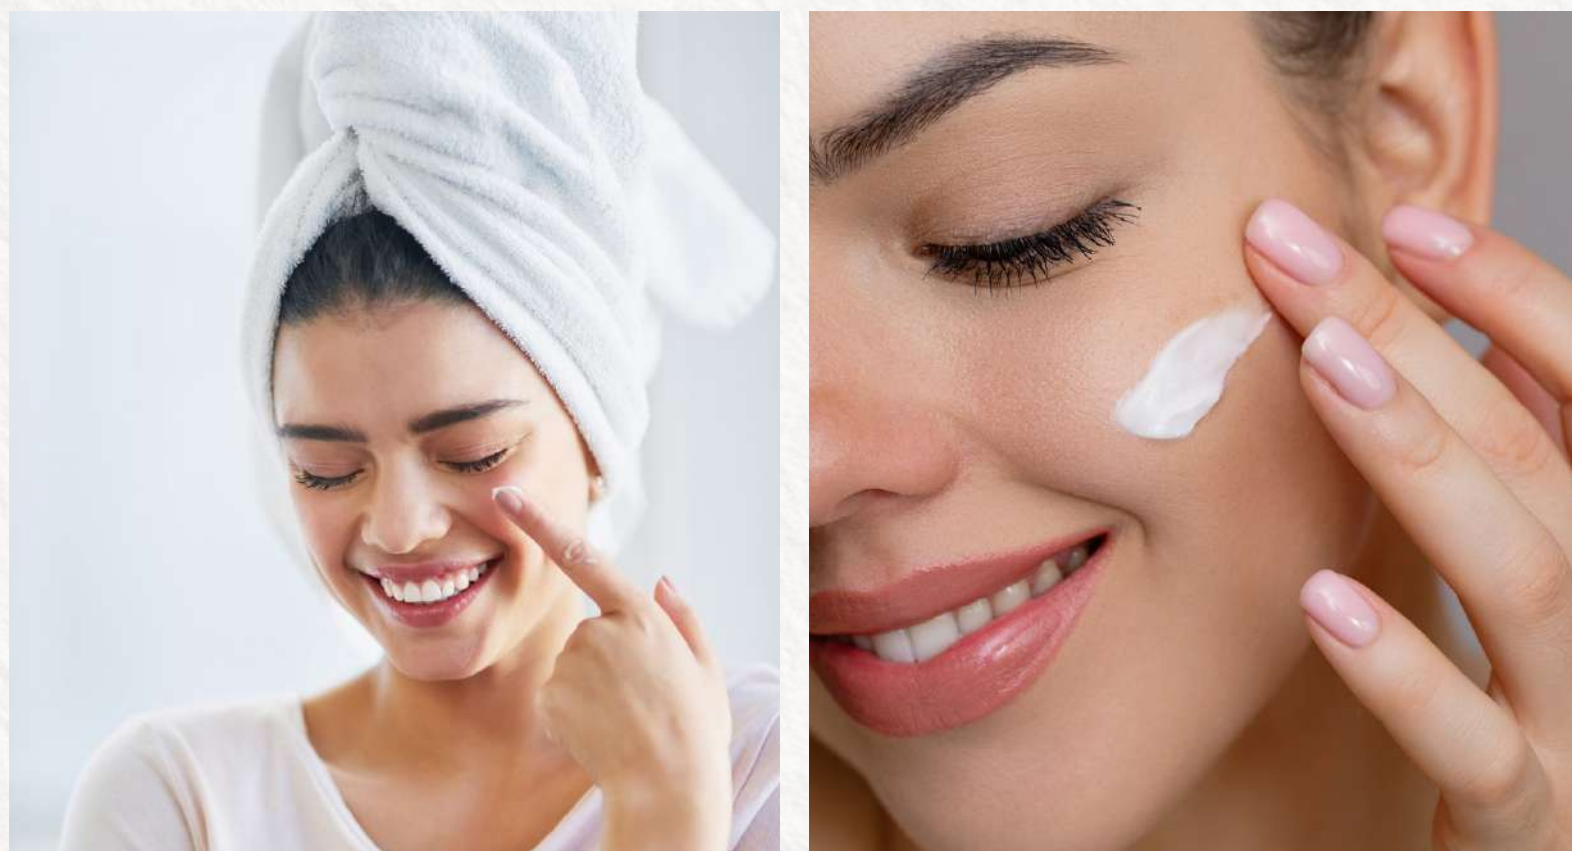

Benefits:

Licorice extract helps reduce pigmentation, dark spots, and tanning, while improving overall skin tone. It gives a natural glow and brighter appearance with regular use.

Visible glow & even skin tone

Key Ingredients

NOURISHING & SKIN SOFTENING OILS

(Virgin Coconut Oil, Sunflower Oil)

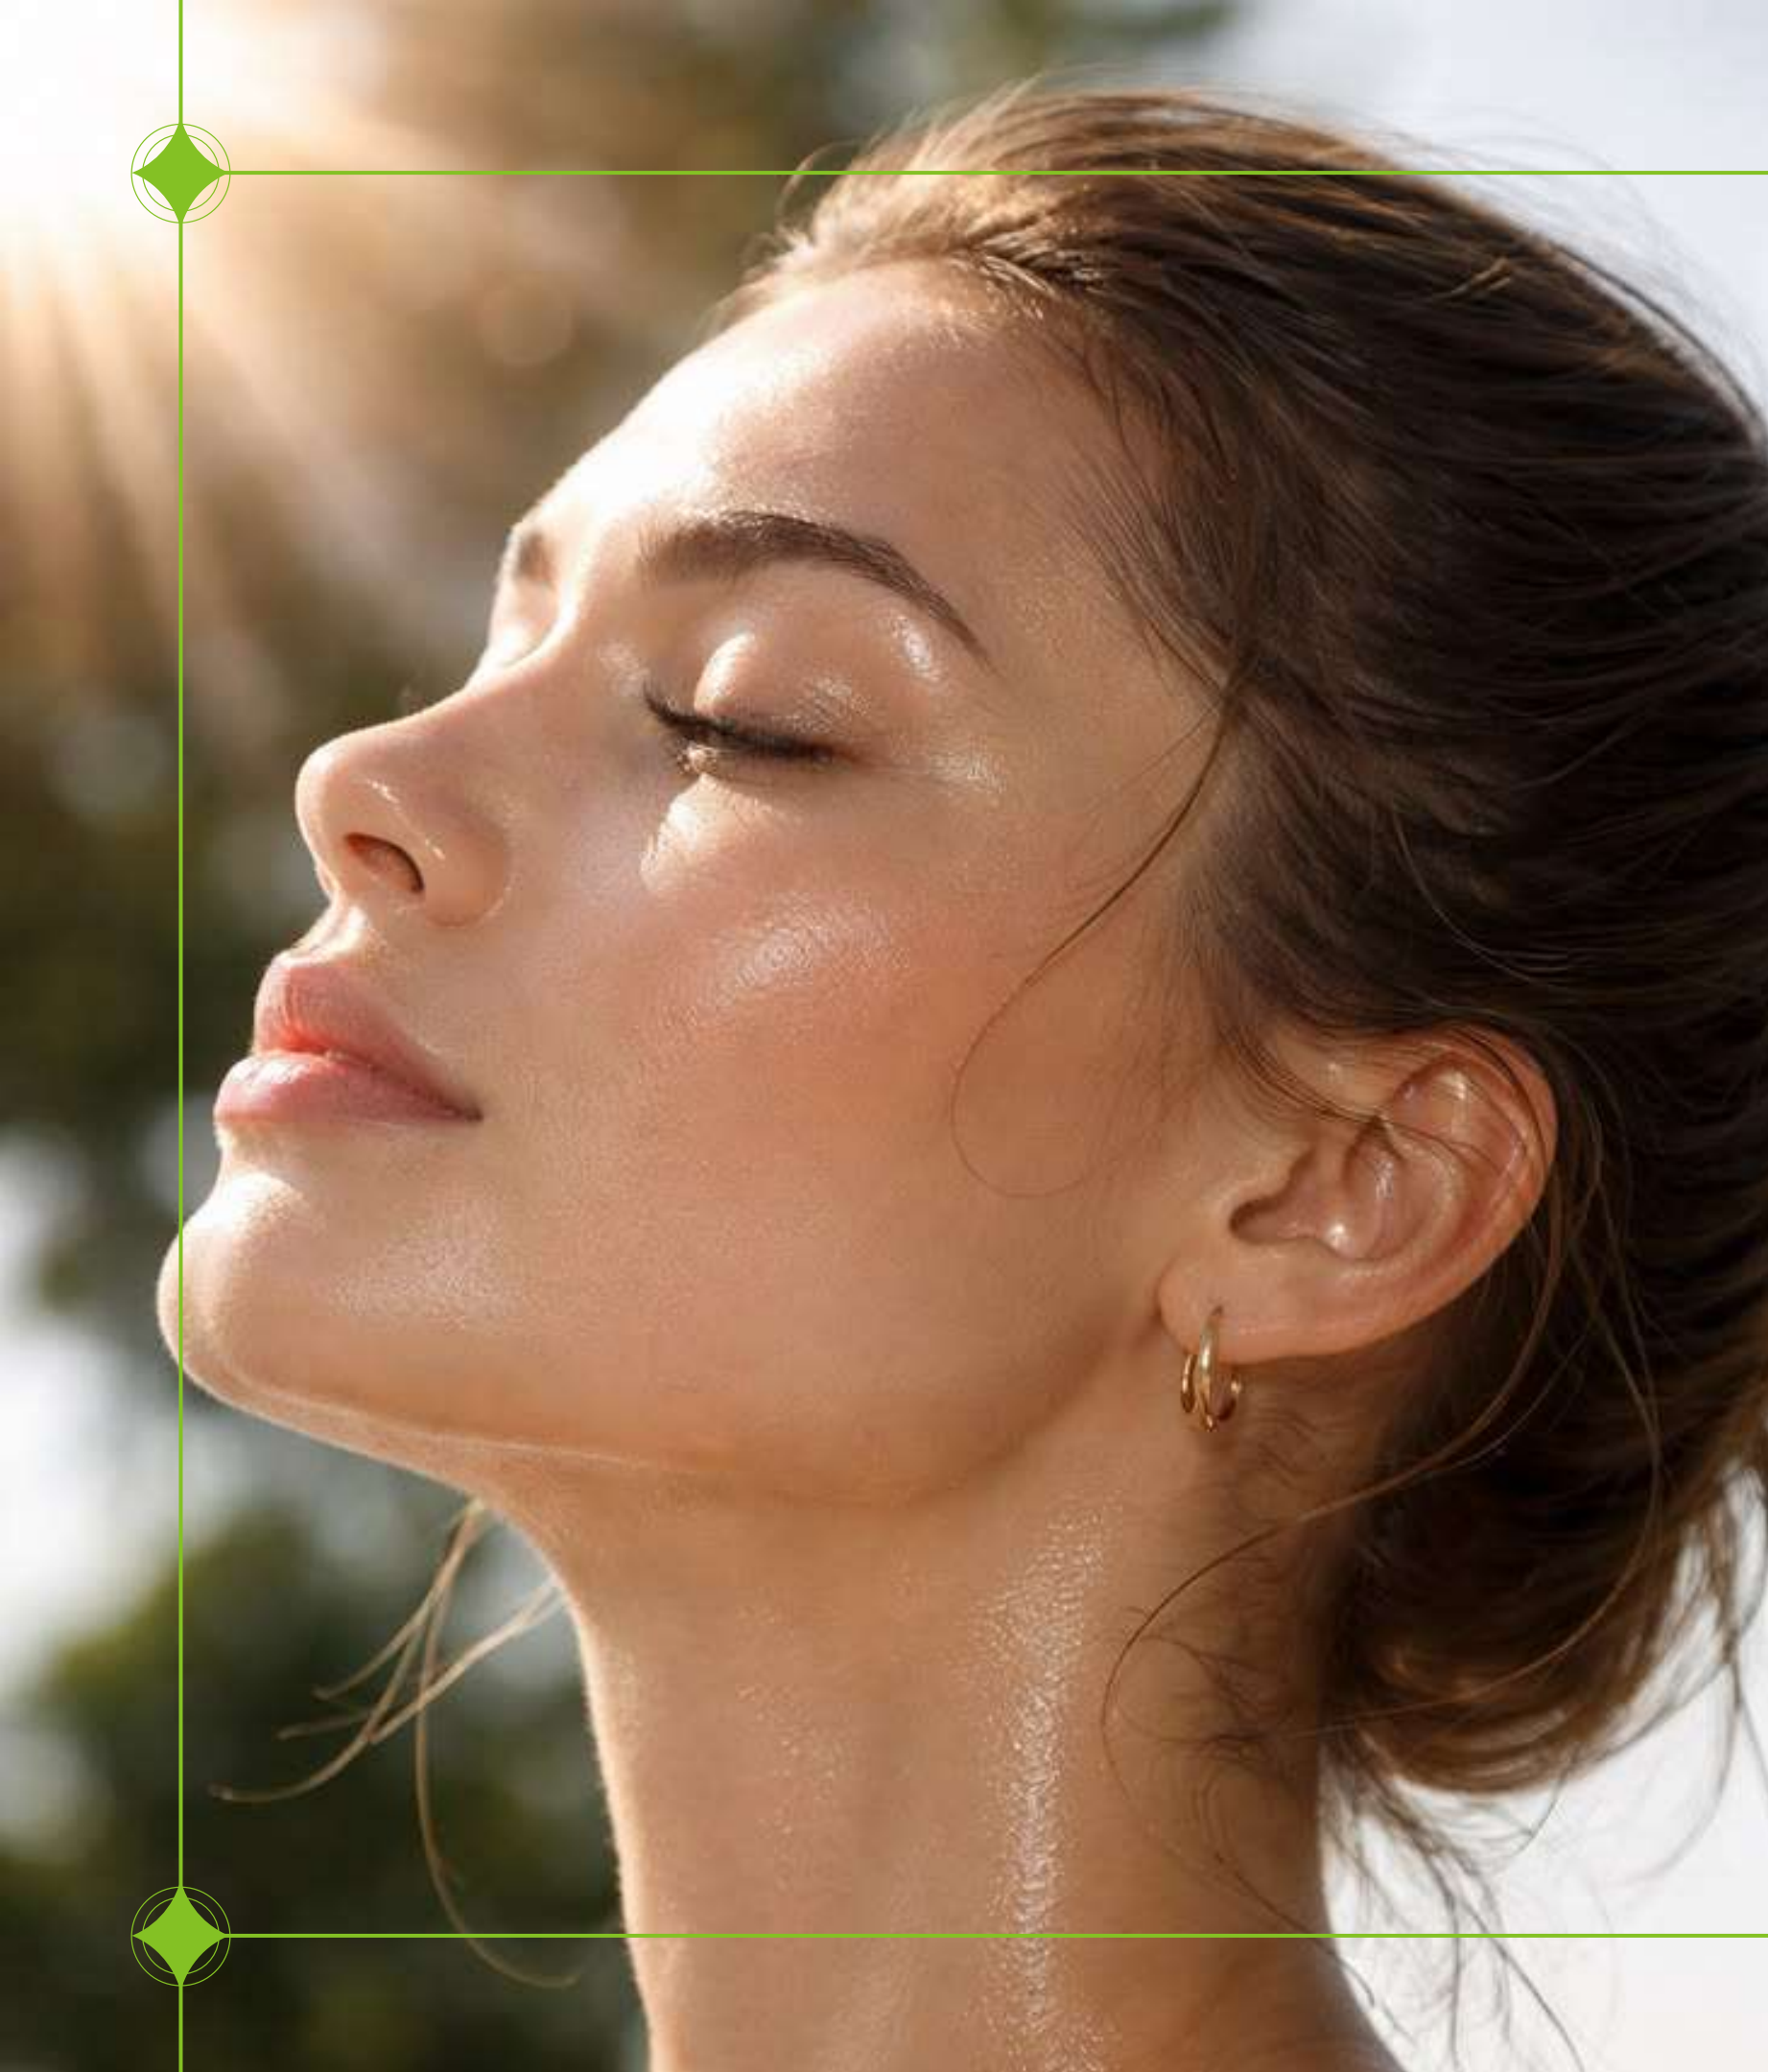

Benefits:

Rich in essential fatty acids and antioxidants, these oils nourish, soften, and smooth the skin. They also help maintain the skin's moisture barrier and protect against dryness.

Soft, smooth & nourished skin

Key Ingredients

TEXTURE ENHANCING & SKIN CONDITIONING BASE

(Caprylic/Capric Triglyceride, Dicaprylyl Carbonate, Dimethicone, Cetearyl Alcohol & Ceteareth-20)

Benefits:

These ingredients provide a lightweight, silky, and non-greasy texture. They ensure smooth application, quick absorption, and a comfortable finish without stickiness or white cast.

Premium feel with non-greasy finish

Key Ingredients

STABILITY & PROTECTION SYSTEM

(Phenoxyethanol, Ethylhexylglycerin, Tetrasodium EDTA, Antioxidants)

Benefits:

These components maintain product safety, stability, and effectiveness by preventing contamination and protecting the formula from degradation.

➡ Safe, stable & long-lasting formula
